

Biodiesel production

- Transesterification

1. How many gallons can be processed per batch?
 2. How long does each batch take to process?
 3. Is the system capable of heating the oil and/or the alcohol-catalyst mixture?
 4. Does the system include methanol recovery equipment? Methanol transfer system? Test kits?
 5. Does the system have the capability to wash and dry the biodiesel?
 6. Does the system require any extra plumbing, fittings or pumps?
 7. Does the system require that a specific catalyst be used?
 8. Does the manufacturer provide technical support?
- Adapted from Schumacher, 2007
